

WALLGRAF X PLUS 170 FR MATT

matt 3521, 170 g/m²

Self-adhesive, PVC-free polyester fabric, 170 g/m², for decorative wall applications

WallGrafX Plus 170 is a 100% polyester fabric with a grey backing and matt surface for printing with solvent, latex and UV inks. It has been specially designed for decorative wall and furniture design as well as for exhibition stand construction and point-of-sale. Thanks to the special adhesive, graphics can be repositioned and removed without leaving any residue or damaging the surface.

The textile surface gives this product a distinctive character, while the grey backing ensures effective substrate coverage. It is suitable for both indoor and short-term outdoor use.

The C-s1, d0 fire protection certification allows it to be used at trade fairs and in public buildings.

Advantages

- PVC-free
- Adheres to smooth, clean and slightly textured surfaces
- Simple application
- Repositionable and removable without residue
- Tear-resistant and dimensionally stable
- Very good print quality
- Suitable for indoor and short-term outdoor use
- Flame retardant according to C-s1, d0

General tips

- Always test WallGrafX Plus 170 FR Matt for compatibility and removability before the actual application.
- We generally recommend allowing the print to evaporate for 24 hours before finishing.
- The product should be stored in its original packaging at a room temperature of 10°C – 30°C and a relative humidity of 30 – 70%.
